

Ex=22

. Create a view with name 'std\_view' using STUDENT table which holds the value of the following :

Reg_No	Stu_Name	Department	DBMS Mark
ECE0023	Reddy	Electronics	56
CSE0024	Sandy	Computer_Science	86
ECE0040	Hajira	Electronics	40

Perform the following

- \* which of the student scored low mark \* List the stu\_Name in Ascending Order
- \* Display the names Group by Department \* list the students having the dept as "Electronics"
- \* List the students whose name ends with the substring "dy" \* Find the students whose mark >50 \* Drop the table

```
mysql> use db;
Database changed
mysql> desc student;
